

Ocean County College, Toms River, NJ

STUDENTS
GENERAL
Student Employment #5010

POLICY

Employment opportunities at Ocean County College appropriate for student workers shall first be made available through the College Work-Study Program to qualified students demonstrating the greatest financial need.

The purpose of the College Work-Study Program is to provide employment for students who have a financial need and must therefore earn a part of their educational expenses.

The Ocean County College Work-Study Program derives its income from both federal and institutional sources.

Students participating in the program funded by the federal government must demonstrate a financial need through the analysis system administered by the College Scholarship Service.

Students participating in the program funded by the College are not required to demonstrate a financial need although priorities are given to needy students. (This program enables the College to employ students who have specific skills related to their area of study.)

All students seeking work/study program funds, either institutional or federal must file a Financial Aid Form with the Financial Aid Office.

REVISED: October 25, 1976
